Afraid of cutting a volatile or energized line when you need to dig?

Hydro-Excavation is the answer.

Let USA DeBusk minimize your down time by providing the best excavation services and technical Support available today for:

- Trenching
- Pot Holing
- Line Exposure
- Pier Digging
- Line Locating
- Utility Identification

HYDRO EXCAVATION SERVICES

Visual Identification of Existing Underground Lines

Don't take a chance on damaging lines and cables or injuring personnel.

With USA DeBusk crews and equipment, you are assured of a safe and effective method for exposing underground utilities that would otherwise be too dangerous with mechanical equipment.

We will eliminate the delays that could occur if there is damage during a digging project.

EQUIPPED FOR HIGH PERFORMANCE

High-powered and highly efficiency equipment, along with trained personnel can make the toughest excavating projects easy and safe, even in the most difficult terrain.

By using high pressure water in conjunction with a vacuum system, a clean cut can be made. At the same time, the vacuum removes all of the loosened debris and liquids.
